MEMBER BUSINESS LENDING (MBL) SUCCESSFULLY COMPLETES SAS 70 TYPE II AUDIT

South Jordan, UT (March 12, 2008) - MBL (www.mblllc.com), the nation's leading CUSO (credit union service organization) for small business lending services, has announced they have successfully completed an SAS 70 TYPE II audit.

MBL's successful completion of the SAS 70 TYPE II audit process demonstrates that their controls, objectives, and systems are in accordance with industry best practices. Voluntary participation in the audit process emphasizes MBL's commitment to ensuring that the service and support procedures they provide to their members exceed operational quality and efficiency standards.

The examination was conducted by Crowe Chizek and Company LLC, and conforms to the standards established by the American Institute of Certified Public Accountants (AICPA). SAS 70 TYPE II (Statement on Auditing Standards No. 70, Service Organizations) is widely recognized, representing that a service organization has been through an in-depth audit of their control objectives and control activities. Successful completion of the audit demonstrates that a service provider has adequate objectives, controls and safeguards in place when they host or process data belonging to their customers.

"We are committed to maintaining the internal policies and procedures established to ensure our customer's transactions are fully protected," said Kent Moon, President/CEO. "It is important to show our members, and the regulators that we operate in a safe and efficient manner," continued Moon. "The SAS 70 TYPE II audit verifies that MBL has the processes and safeguards in place to protect the valuable data our credit union partners entrust us with."

About MBL

MBL is the nation's leading credit union service organization (CUSO) dedicated to providing comprehensive business lending training, services and resources to credit unions. By pooling resources and sharing costs, MBL helps credit unions to affordably optimize the quality and efficiency of the business lending process and maximize ROA without draining staff and other resources. MBL was selected as the recipient of the prestigious annual CUSO Collaboration and Cooperation Award for 2007 by the National Association of Credit Union Service Organizations (NACUSO).
